

Splash

Splash is a 13 year-old Appaloosa mare with quarter horse in her background, at 15 hands. She is registered and I have her papers. Good disposition about everything. Would make an excellent trail horse.

Bailey

Bailey is coming 2 years-old this August. I got her at 6 months and she had never been handled. Her sire was a slight colt of unknown breeding; he had a rather dish-shaped face so possibly some Arab in there, which would explain her floating, extended trot she does by herself in the field. Her dam is a small paint pony between 11 & 12 hands. Bailey is a delight! Curious and cautious of everything, her color and markings are as lovely as her movement. She has good feet, halter broke, leads and gets her feet trimmed. She's had a little of natural horsemanship training, mostly playing Parelli games. She's around 11+ hands & would be best suited for children.

Cloud

Cloud is a 3 year-old Palomino miniature horse, gelding. He is very smart and cute, gets along great with big horses and spends his turnout time in a herd of 8 (big) horses. Unless there is a lot of grass, he goes out with the other horses on 10+ acres. Good feet and no vices.
